MISSION TO MARS

by

JASON WELCH

Fiona Plumpton drives through VICTORIA in her YELLOW PORCHE[W3RDD] along ST JAMES STREET and turns left at parliament Square to NELSON'S COLUMN parking nr PALL MALL arch,then walks over NELSONS COLUMN, where Harry Sullivan is sitting on the lions .

HARRY SULLIVAN Glad you made it, time to see our baby .

FIONA PLUMPTON Are you sure you want to call him Damian ?

HARRY SULLIVAN Yes Damien Sullivan .

PLUMPTON Well let's go and see Dr Rothschild over the global offices , is Peter in ?

HARRY SULLIVAN Yeah Peter's just phoned .

They walk from Nelson's column past NATIONAL PORTRAIT GALLERY up to Tottenham court road and into the global office where they're greeted by Peter Elgin .

PETER ELGIN You don't want to be late for your own birth Sarah .

HARRY, SARAH, and FIONA follow ELGIN up a blue and pink corridor into a red and white lift taking them up to a DELIVERY WARD where DR ROTHCHILD is waiting .

HARRY SULLIVAN Is Damian out of the birthing chamber .

DR ROTHCHILD You're just in time .

They watch from an observation window ,as a conveyor moves out

of a hatch with a baby on it, onto an exercice mat containing raisins ,sultanas , apricots , just below the observation window ,
DR ROTHCHILD Damian will live on the dried fruit for two days.
HARRY SULLIVAN And then we can take him home, right DOC ?
PETER ELGIN The artificial PLACENTA invented by global chemicals ,with artificial EMBRYONIC FLUID was a total success.
DR ROTHCHILD ABSOLUTELY PETER.
PETER ELGIN Write your article Fiona and publish it in science weekly immediately .
ELGIN and PLUMPTON leave the birthing chamber and walk down the red and white corridor into a blue and pink lift then descend to the ground floor of GLOBAL TOWERS into Tottenham court road . They turn right towards Trafalgar Square passing Nelson's column then walk to Charing cross underground alighting a train on the northern line toTOWER BRIDGE .

At TOWER BRIDGE they walk down a gang plank next to HMS Belfast and onto the BLACK PRINCE submarine where crewman in the orange boiler suits[**taken in at the waist with sleeves rolled up**]
, help them down onto the flight deck where they join captain BYRON HENRY in the blue Room.
CAPTAIN CORWIN Mr CARMICHAEL dive to periscope depth and plot a course to Atlantic Ocean .

PETER ELGIN Thank you CORWIN If you can get us to our rendezvous in the middle of the Atlantic Ocean?
FIONA PLUMPTON And what's the UNITED EARTH OCEANS newest sub been doing. ?
CAPTAIN CORWIN TOPOLOGICAL ANALYSIS of coral reefs near ECUADOR. We're maintaining radio silence until we get to our rendezvous with SEAVIEW, our flagship .
CORWIN walks to the head of the oblong table an uses the INTERCOM .[Send a message to the SEAVIEW and then maintain radio silence Mr PICCOLO .]
ELGIN THEN WE'LL JUST GO TO OUR CABIN AND FRESHEN UP.
Elgin leaves the Blue Room and down the wide metal gantry past flight suited personnel. in their United Earth Oceans uniform to the crew quarters.
PETER ELGIN Did you get in touch with the NEIL WOSHAK ?
FIONA PLUMPTON Yeah he's flying from LONG ISLAND and lands at San Francisco to rendezvous with us at the ASYLUM .
PETER ELGIN And then we'll move materials through MOUNT RUSHMORE.
FIONA PLUMPTON Tipping a hat to a Thomas Jefferson Benjamin Franklin and George Washington. PETER ELGIN And take a right at red rock flats till we get to the Mojave desert .
FIONA PLUMPTON Until our meeting with the captain of the SEAVIEW how about a game of battleships .
PETER ELGIN What's the original board game or the Atari console game .
FIONA PLUMPTON I've got to go to my cabin and put in a report to science weekly then power to my nose .
The black Prince submarine reaches it's destination using detailed maps of the Ocean floor, and comparing them to sonar readings .
Henry leaves his cabin and out the double doors along a main gantry to the operations room ,he walks through the hexagonal guardrail and uses the INTERCOM
CAPTAIN CORWIN This should be the rendezvous point

now rise to periscope depth and send a signal to the SEAVIEW .
He calls ELGIN'S cabin on the INTERCOM .
CAPTAIN CORWIN Okay make your way to the operations room now we've had a call from the Seaview.
He uses a control to activate an LCD display where the screen saver the UNITED EARTH OCEANS is replaced by ADMIRAL NELSON .
BYRON HENRY Hello Admiral.
ADMIRAL NELSON I hope you got good news .
ELGIN comes into the operations room and sits on a chrome and wicker chairs around an oblong glass table
ADMIRAL NELSON I've got that team of deep sea divers ready to transfer .
CAPTAIN CORWIN Mr Carmichael open the cargo hold .

The cargo doors open from the SEAVIEW and a submersible sails over an enters the cargo hold of the BLACK PRINCE .
PETER ELGIN And hopefully you got a discount better than the blue cross sale at Harrods .You know this HARRODS Mac cost me £300 .
FIONA PLUMPTON Was that inflation for you Peter ?
ADMIRAL NELSON If you can supply those sealed clear resin plastic cabins for the.Deep sea ocean you can have the wet suits the diving gear and the trained personnel with all our blessings .
PETER ELGIN Thank you .
ADMIRAL NELSON I told BASCOM our proposal for all of European and America .
ELGIN BURIAL-AT-SEA

ADMIRAL NELSON He's having trouble getting it through congress .I've got the ships to bring all corpses in sterile bodybags to a fissure in the atlantic and smooth the fissure flat ,concrete it over immediately leaving a flat surface ready for contractors to lay a cheap reinforced resin plastic pipeline with a bullet train across the pond .
CORWIN Mr Carmichael can you greet the deep sea divers ,give them an induction and get the the chief to stow all their wetsuits and diving gear in the galley .
PETER ELGIN I really appreciate this admiral without your help Olympus Mars would never be built .
ADMIRAL NELSON A perfect training ground for the men to be able to survive in the harsh climate of the fourth planet, .
PETER ELGIN If that topological survey of the ocean is accurate I'm going to campaign on this side of the pond for burials for all UK habitat citizens .
NEAL WOSHAK To cement out and level when the body bag reaches the fissure in preparation for a cheap resin plastic pipeline for commercial traffic and bullet train .
FIONA PLUMPTON I hear you got bascom lobbying the senate .
ADMIRAL NELSON Between a lot of us we can try and get government backing before the whole of our green and pleasant lands becomes a graveyard full of gravestones.
ELGIN Goodluck on your continued TOPOLOGICAL SURVEY,of the ocean depths, and i hope the UNITED NATIONS sub committee gives the go ahead .
The the bridge of the SEAVIEW is replaced by the screensaver of the United Earth oceans and the officers return to there workstations .
Às the BLACK PRINCE submarine bursts at the gulf of Mexico all personnel destined for Mars assemble near the flight deck and are issued with protective clothing.
CORWIN leads them out on deck onto the outer hatch near the main stack. They walk along the length of the submarine and then walk over a small gangplank to the theme tune of It Ain't Half Up Mum. When they climb onto the when they clamber onto the shore.They walk over the coast road and then a light.People, carriers and coaches to take them for a rendezvous in the Mojave Desert.

The coaches join the mid morning traffic towards the highway following trucks which have just been loaded with freight from cargo ship on the harbour side.

A BOWING 767 lands at SAN FRANCISCO airport with NEIL WORSHAK following passengers who disembark the plane to carousel , and meets Rebecca Holden .
They drive past San Francisco bay onto the highway for a rendezvous in the MOJAVE DESSERT .
The articulated lorries park at the asylum and the divers walk over

with some of the ancillary stuff and retired hotel managers headed by Stephen Taylor . They walk over the highway and alight an 8 foot wide rolling road, ,conveyors taking them through NEVADA , past MOUNT RUSHMORE around red rock flats to the MOJAVE DESSERT .

The rolling road intersects a conveyor and STEVEN TAYLOR steps down and walks over to a waste high console activating the dimension gate . The twin vertical 8 foot arcs rotate 40 degrees creating a rippling mercury pool and the pallets move along the conveyor straight through onto the surface of Mars .

Within REINFORCED PLASTIC RESIN SEALED UNITS supplied by Dingles plastics in Newtown opposite UNCLE WINKY'S CAKE and CONFECTION FACTORYdeep sea divers sitting on resin plastic molded seats with safety harnesses follow through the dimension gate onto the surface of the red planet Mars . The conveyor of people and machinery is ejected onto the Red Planet MARS and then transported. till it reaches Rocky boulders carved.Into the Greek God Ares.

NEAL WOSHAK. Gentleman welcome to OLYMPUS MARS Home of the GODS .

The CONVOY stops at a statue of ARIES GOD OF WAR .ELGIN and PLUMPTON ans WOSHAK disembark the rolling road .

FIONA PLUMPTON ARES GOD of WAR, the TITANS are waiting at a mercury pool on planet Mercury for when JUPITER awakens and reclaims his rightful name of Zeus GOD of mount Olympus .

PETER ELGIN We intenend to build a city which will make the entire galactic federation proud .

Morning on KALDOR CITY commissioner MILES enters the changing rooms .

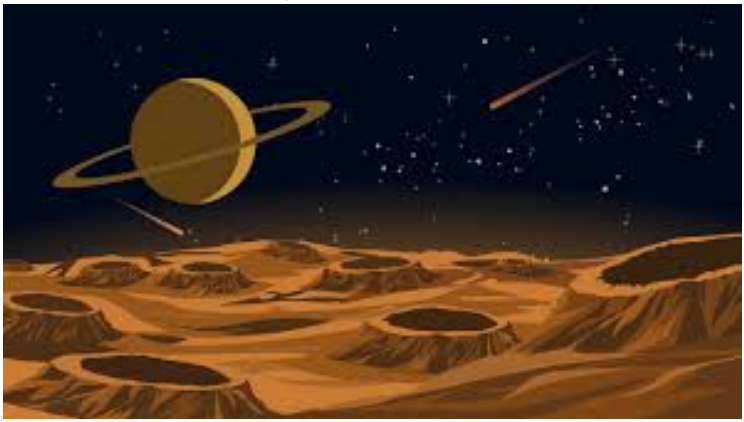
COMMISSIONER MILES MOON BOOTS AND DINNER SUITS and let's get to work .

The adjudicators put on their costumes with silver moon boots , red jackets, white shoulder pads and a white floor length cape,or white white costume and green floor length cape .

They take a travel tube to the perimeter wall past KALDOR citizens going about their business .

A gap in the wall opens and mobile homes constructed in the five miles away in the blind heart desert trundle along the rolling roads towards the center of KALDOR, the adjudicators clearing away

from all commercial traffic .
The prefabricated sealed units reache the landscape gardens with a dimension gate at the center of the city . .COMMANDER MAXELL uses a waste high console to activate the dimension gate sending the mobile homes through to Olympus Mars where their placed to the left of the statue of A,GOD of WAR .



Earthmovers and blue pallets are ejected from the dimension gate onto the 8 foot rolling roads bound for the canyon behind Olympus Mars and they move along to the statue of ARES GOD of WAR and then to the left ,a deep canyon assigned for the water reservoir .
STEVEN TAYLOR So this is going to be the reservoir .
A platoon of V-O-C robots alight the earth movers to clear the area for drilling and groundwork necessary for the dam.
There BLUETOOTH headphones tuned to OLYMPUS MARS channel:-
ELGIN The chalets have just arrived straight off the assembly line of my factory on KALDOR .
Mobile homes reach a Junction and go to the left of the statue of ARES and are positioned in rows , stacked up three high and then some of the.Labourers push access ladders for the second and third floors.
ELGIN retrieves a pack of playing cards and hands a card to each of the divers the League of retard hotel managers and some ancillary staff, , so they can find there habitat .
They walk from the vacuum submersibles in there wet suits breathing from diving cylinders to there apartment .
WOSHAK All the utilities ,gas, water and electric are

plugged in ready for the citizens to occupy .
ELGIN Fiona if you can get a party of winky's juniors to put some fairy lights on the statue of Aries God of war .

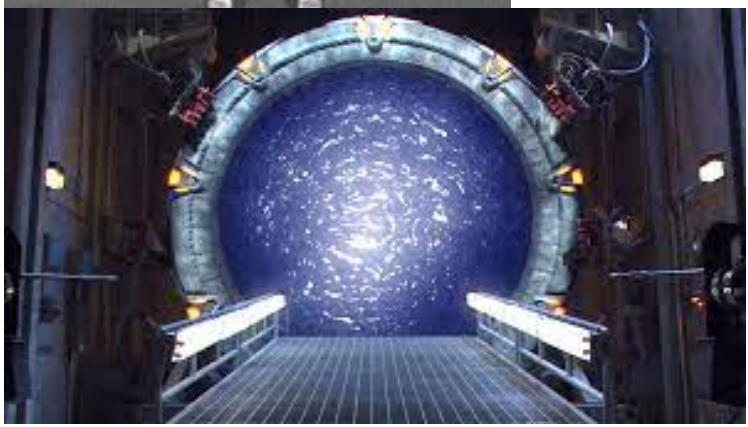
In the further reaches of the solar system.The crew of the spaceship

Viscount.Are preparing TITAN base with a platoon of VOC robots.Titan Base is located on the fifth moon orbiting the rings of Saturn ,with modules on the surface and tunnels drilled out of the rock .
JIM FERGUSSON Just getting ready for the return journey to earth, check the news agencies .
On the monitor TULA REECE is wearing a mauve dress ,with a pearl necklace reading news .
TULA REECE Our top story tonight is the discovery of the long lost civilization of MAGRATHEA the birthplace of the humans .
ERIC YOUNGBLOOD T hey may not be the birthplace of us .
GENE MOCKFORD Yeah we'll never know .
TULA REECE The searcher research vessel found MAGRATHEA on the Eastern side of the galaxy confirming that the arc ships traveled across the galaxy 3,000 years ago .
GABBY MACDOOGLE T here's heightens aggression from the SPACE RAIDERS .
ERIC pops a corn snack in his cake hole .
ERIC YOUNGBLOOD Well that is why we are here .
GABBY MACDOOGLE At the moment the SPACE RAIDERS are the only aggressive force .
She flips the channel to see what's on GLOBAL NET .
GENE MOCKFORD The global bulletin boards will tell us what's going on this side of the galaxy .
The synthesized ambidextrous voice of monitor
Olympus MARS is being constructed and i have a live video feed
T hey see the exterior of the Martian surface leading up to the statue of ARES-GOD of WAR ,
ERIC YOUNGBLOOD So far that's Olympus Mars , GLOBAL have 104 chalets Stacked up east of the statue, with construction workers, ancillary staff and caterers .
From the monitoring room v15 cuts in
v15 I've detected a large ship Coming across from the gamma quadrant .
GENE MOCKFORD What's the gamma quadrant I saw .
ERIC YOUNGBLOOD Sort of Southwest as the crow flies .

JIM FERGUSSON Can you run it through the database v16 .
V16 Yes it confirms to a SPACE RAIDER to ship .
JIM FERGUSSON Can we intercept, we know that SPACE RAIDER ship is loaded to Bear with arms .
ERIC YOUNGBLOOD Arms for the blind or weapons .
GABBY MACDOOGLE The news agencies told us they're now an aggressive empire .
JIM FERGUSSON V10 to 14 return to base and v15 refuel the VISCOUNT .
From the monitor.They see VOC.Spacewalk back to Titan Base along the cable lines attached to Ice Rocks on the rings of Saturn.
ERIC YOUNGBLOOD Until relief crew arrive your in charge sv7
Jim Ferguson leaves the lounge and sits on a chrome and wicker chair at the communications console and called the operations room of company central on KALDOR and the screensaver of the GALACTIC FEDERATION is replaced by adjudicator MAXELL .
MAXELL well done JIM and thank v15 for seeing it, unfortunately the only dimension gate is above the red eye of Jupiter and we've got no ships in the area ,KALDOR is in the center of the galaxy .
FERGUSSON Yes we're at this Western spiral arm with no protection .
MAXELL I'll power up Jupiter base and send some small pursuit ships with beryllium missiles ,you can attach them to the VISCOUNT
FERGUSSON And what are are your orders if we manage to catch up with this SPACE RAIDER ship because it's more maneuverable more powerful and faster and you're the small pursuit ships can't catch it either .
MAXELL V23and V24 to your docking station and I'll instruct them in advanced battle maneuvers.
ERIC YOUNGBLOOD Where only human will have to wing it .
MAXELL Start your pre-launch checks and get over to Jupiter as quick as you can the presidential parties about to

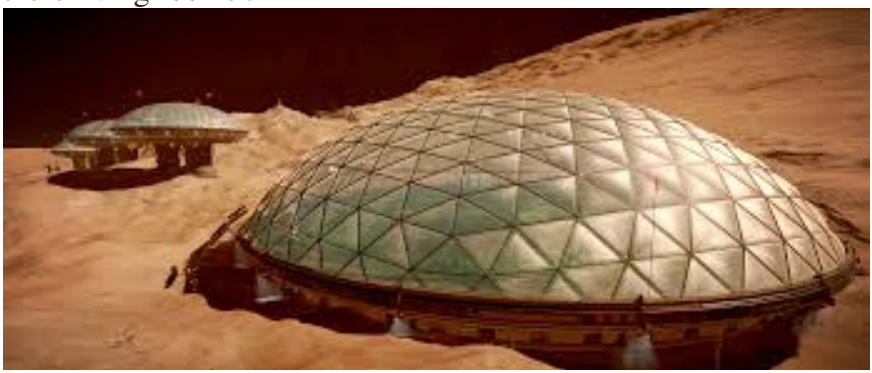
authenticate Olympus Mars for the entire galactic federation .
ADJUDICATOR ALGIE We can't back out of it because the news agencies have already booked the tickets .
FERGUSSON You telling me you're making a big announcement about the opening of Olympus Mars and the president's gonna be there .
The crew of the VISCOUNT leave the operations room of Titan base and walk through the umbilical cord to VISCOUNT .
MAXELL I should have some V-O-C trained by SPACE COMMAND with weaponry .

JIM FERGUSSON Disengage docking clamps, we'll glide off the landing pad then bring up the main boosters .
Jim and Gabby go to the cockpit Eric and genie activate auxiliary systems .
GENE stands near a BABY-BELLING and opens a cabinet for some Pop-Tarts .
GENE Do you like the strawberry or the Apricot Pop tarts .
ERIC YOUNGBLOOD I'll have a MARS BAR



BACK at OLYMPUS MARS..... Stephen Taylor alights the rolling road in his wet suit and oxygen mask and sits on the resin plastic chair activating it towards the dimension gate .
He steps down and walks to a waist high console next to the 12 ft high twin vertical arcs and activates. Immediately a circular arc rotates 40 % creating a mercury pool at it's center.
PRESIDENT VANESSA BELLAMY and GENERAL WILLIAMS arrive inside one of the clear plastic submersibles .
GENERAL WILLIAMS What's a lovely view of the surrounding area.
PRESIDENT VANESSA BELLAMY They've picked a good spot to make Olympus Mars .

PETER ELGIN and FIONA PLUMPTON walk out the operations room in there wetsuits with flippers to inspect the theater being built behind the statue of ARIES GOD of WAR .
V-O-C robots are digging trenches with shovels down to a main stage where a canopy is being erected over the theater .
GENERAL WILLIAMS They've just got the canopy over the theatre , and your expected .
PRESIDENT VANESSA BELLAMY I'd better get my KALDOR environment suits on ,are you sure it's airtight?.
GENERAL WILLIAMS Thoroughly tested .
More guest arrive for the opening ceremony including some ARCADIANS led by TANK ZOR with FLINT and MELVIN and the rest of his Viking hordes and wives .
The clear plastic resin submersibles get to a T- junction by the statue then move into the prefabricated dwellings and walk straight out into there living rooms .



NEIL WOSHAK All of our guests will be able to come to the theater ,if they want , for the opening ceremony .
ELGIN For the rest of you, the whole event will be transmitted through the INTERCOM which connects all the chalets together and is also connected to the entire HYPERNET , which covers life as we know it .
FIONA PLUMPTON Looks like global chemicals have got the Monopoly on them this sector of space ,
PETER ELGIN One day GLOBAL CHEMICALS will run the whole universe not just Mercury Venus earth Mars Jupiter Saturn Uranus Neptune Pluto .
PLUMPTON Universal not just the inner planets of our solar system .TANK ZOR is on the line PETER

.ELGIN Well thank you Fiona wonderful to have the people of Arcadia here .
From the viewing screen behind the theatre the screensaver of GLOBAL CHEMICALS is relaced by.TANK ZOR in.Ceremonial Viking costume .
TANK ZOR Find a habitat where we can use the BIO-MORPHIC TRANSITION method to create more ARCADIANS .
PETER .ELGIN I really would take that up with a high council .
PRESIDENT VANESSA BELLAMY TANK it's not going to happen .
TANK ZOR Well I want to trade the wife in for a younger model .

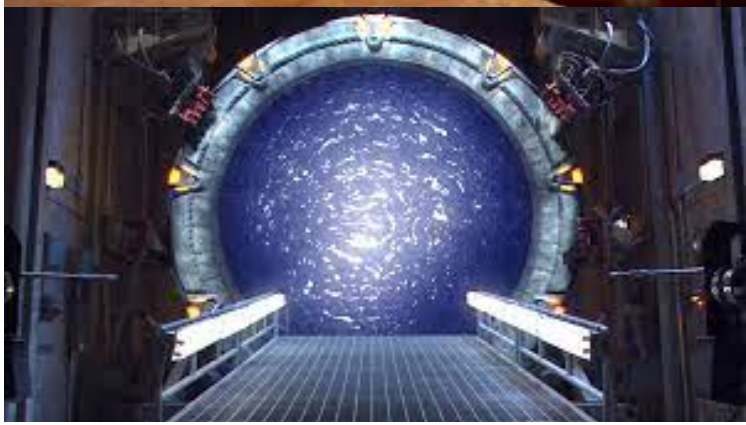
More deep sea sealed plastic resin submersible arrive on the rolling roads depositing more ARCADIANS straight into there homes .

PETER ELGIN I thought the best idea would be for it to be a joint effort, I'll provide the cement and some of the plants and machinery , you provide pre-programmed V-O-C to use earth movers , and construction .
GENERAL WILLIAMS V-O-C using the docking stations which have just arrived to build the reservoir the dam and the hydroelectric generator .
FIONA I'll take notes .
FIONA gets her pencil and matching filofax
WOSHAK note to the ships gully romulan not to be served at diplomatic functions .
PRESIDENT VANESSA BELLAMY `This will be a CRYSTAL BUSEPHALUS hydr-electric generator .
PETER ELGIN Which separates two atoms of hydrogen from one of oxygen.
FIONA PLUMPTON That we need to refresh the habitats in sealed units .
GENERAL WILLIAMS and the hydrogen then becomes a combustible fuel for a modern turbine giving electrical power to charge the batteries and for the habitat .
ELGIN Fiona if you can get a party of winky's juniors to put some fairy lights on the statue of ARES ,.
From the operations room Elgin gets a call on his Wrist communicator from the adjudicators office .
ADJUDICATOR STEVENS There's a large SPACE RAIDER ship on the way we're told to prepare for a lockdown .
ELGIN RED ALERT there's a hostile alien ship coming in, all personnel to there chalets .
All the people start leaving the theater running up the sandstone steps to their chalets .
ADJUDICATOR STEVENS COMMANDER MAXELL is sending some pursuit ships to apprehend but they won't be here in time .
General Williams and Vanessa Bellamy walk over to royal box to join the Olympus Mars community watching news feeds throughout the empire and ELGIN walks up the main stairs and turns right at this statue of an Aries and into the operations room to stand by adjudicators in their familiar i red uniform with silver moon boots and flooding white cape .
ELGIN What's happened Neil .
ADJUDICATOR STEVENS I have alpha one who wants to talk

to the president .
ELGIN steps through the hexagonal guard rail and onto a high platform Under the main viewer and and the screen saver of the galactic federation is replaced by the leader of the SPACE RAIDERS .

THe SPACE RAIDERS leader ALPHA ONE appears on the screen, a resin plastic shell with large speakers attached and a metal dome that lights up when he speaks .
ALPHA ONE Clear all your people from Olympus Mars now I will blow up the dimension gate .
ELGIN Really this is a brand new colony ,I know you've got issues with the galactic federation but why don't you take them up with them .
The monitor is replaced.By a similar ruton hybrid in its mobility scooter.It's domed head lighting up when it speaks.
ALPHA TWO Even now I hear TANK ZOR wants to use my brethrin and gene splicing to create the alien trash of the galaxy owned by company Central .
ELGIN And you're infiltrating our society, killing our citizens.Sending breading units down to remote colonies .
ALPHA THREE You're using the BIO-MORPHIC TRANSITION system create livestock in the form of DENTRASI, A3 legged animal with a round head that once processed can make microwave meals., But the RUTONS are an intelligent species which should not be exploited.
GENERAL WILLIAMS SPACE RAIDERS are stealing from cargo ships bound for outline colonies .
ALPHA ONE Trading negotiations with independence colonies is legitimate

GENERAL WILLIAMS So you're happy to live in your mobility scooters without the opportunity to walk like humans .
ALPHA TWO We represent the gestalt of NIMBUS 3 unchanged and born in rock pools,
we don't want to be used by the galactic federation .
PRESIDENT VANESSA BELLAMY Your concerns are being addressed with the RUTON ambassador SEYMORE .
Images replaced by Seymour theRUTON ambassador on CANDERELLE .
SEYMORE I've asked a high council to give all RUTON hybrids limited citizenship .
ALPHA FIVE We want full citizenship, I will hold this new Olympus Mars hostage .
ALPHA ONE any attempt to bring reinforcements and we'll just blow up the dimension gate leaving you stranded
ELGIN cuts the line
ELGIN General Williams what should we do?
GENERAL WILLIAMS CALL THERE BLUFF .
PRESIDENT VANESSA BELLAMY YEAK PLAY FOR TIME .
GENERAL WILLIAMS V36 is your assault squad ready?
ELGIN reopens the channel
ALPHA THREE Are you going to stop producing DENTRASI for microwave meals and barbecues, from my brethren .
GENERAL WILLIAMS Maybe but the DENTRASI is needed in many of the galactic federation colonies, AND IS VERY TASTY WITH FRENCH FRIES AND FIZZY DRINK /
ALPHA ONE You'll instruct the adjudicators to bring the president out near the dimension gate and wait for a one of our pursuit ships to pick her up where she will stand trial for crimes against nimbus 3 and the RUTON GESTALT or we we will blow up the dimension gate
GENERAL WILLIAMS Blow it up then you have to come through all of us to get to the president .
ALPHA THREE LAUNCH THE PURSUIT SHIPS .
ALPHA FOUR GUNNER destroy the dimension gate .



GENERAL WILLIAMS `` All Olympus Mars personnel this is a purple alert with flash photography , go back to your habitats and getting to the suspended animation units .

ADJUDICATOR STEVENS Those cryogenic units are reinforced they should stand the blast of a direct hit .

ELGIN Yeah we're designed them at CLICKNALOGIC in LEEDS .

Three pursuit ships leave the SPACE RAIDERS battleship on a direct course for Olympus Mars .

GENERAL WILLIAMS Stephen shut down the dimension gate just in case the blast affects the other side and send a message to the asylum before communications are cut out .

Alpha 3 descends low over the rolling road in a S PACE RAIDER pursuit ship and fires a BERYLLIUM MISSILE directly into the DIMENSION GATE which explodes on contact sending debris out across the landscape .

GENERAL WILLIAMS uses INTERCOM to call COMPANY CENTRAL

GENERAL WILLIAMS LANDERCHILD we need rescuing,

The VISCOUNT reaches orbit and plots and intercept course .
MAXELL We're only going to get one shot, Adjudicators to your pursuit ships .
ADJUDICATORS go into the cargo hold and alight to pursuit ships .
The cargo bay doors open and the pursuit ships fly to intercept the SPACE RAIDERS
GENE and ERIC man operation consoles .
MAXELL Try and weaken their Shields and they'll go for a target look .
Eric lines up the missile launcher, and fires two BERYLLIUM MISSILES at the belly of the SPACE RAIDERS that explode on the hull on contact, sending the ship spinning out of control .
ERIC YOUNGBLOOD SHIP DISABLED>
MAXELL Well done VISCOUNT you've saved Olympus Mars.
From the operations room the screensaver the galactic federation is replaced by a commander MAXELL MAXELL This is the VISCOUNT we'll follow the Space Raiders and destroy them.
GENERAL WILLIAMS No, commander, just keep them disabled.
ADJUDICATOR ALGIE Too late for that they've destroyed the dimension gate OLYMPUS MARS is stranded .
PETR ELGIN Yes I will soon run out supplies ,the reservoir and the hydro is not up and running and the whole base will be shutting down .

LANDERCHILD The Galileo would not reach you for two weeks but if the space raiders are serious they'll be on their way with reinforcements .
GENERAL WILLIAMS Then make our rescue your top priority .

JIM FERGUSSON The battleship is moving away at high speed I don't know if I can catch them .
MAXELL All the adjudicators fly back to the cargo hold and assemble in the operations room .
MAXELL ALPHA ONE Leave the area, be fired on again.
JIM FERGUSSON They're vering off on a direct line for earth .
ADUDICATOR DUTTON Surely they don't think they can just defeat the entire planet earth ?
GENERAL WILLIAMS They'll sent down breeding units from high orbit who will kill and mimic humans then infiltrate human society .
JIM FERGUSSON Prepare for full acceleration .
ERIC YOUNGBLOOD I'm gonna load some more beryllium missiles .
ALPHA TWO The battle is not over yet and you'll never catch us .
MAXELL You have to turn back now and accept and become prisoners of the galactic federation .
ADJUDICATOR STEVENS Surrender or be destroyed .

Back on Olympus Mars the crew are recovering after the attack on the dimension gate .

GENERAL WILLIAMS Have a clean up team from KALDOR

PRESIDENT VANESSA BELLAMY Luckily none of the habitats are damaged .

In the operations room general Williams calls on LANDERCHILD at company Central .

LANDERCHILD Put all V-O-C in there docking stations , and program them to rebuild a new dimension gate .I'll send all the materials through the JUPITER gate .

PRESIDENT VANESSA BELLAMY It seems the galactic federation is taking charge of the Western spiral arm of our galaxy .

PETER ELGIN Until SPACE RAIDERS stop there aggression .

NEIL WOSHAK If earth finds out SPACE RAIDERS and the GALACTIC FEDERATION are on there doorstep there'll be panic .

The SPACE RAIDERS battle cruiser lands on the moon near the crater of Olympus Mons

MAXELL Can you land near them on the other side of that flat plateau .

Luckily, the moon has very low gravity.I should be able to land within walking distance of the SPACE RAIDER battle cruiser.

The Viscount lands on the side of a crater.With the SPACE RAIDER ship opposite .

MAXELL Space Raiders, you're in an unauthorized zone and you should leave the moon.

ALPHA ONE We'll meet you on the plains of stones to the left of Olympus Mons .

MAXELL AGREED.

MAXELL Adjudicators get your helmets on and your respirators .

The adjudicators put on helmets and walk out the airlock onto the

surface of the moon .
ADJUDICATOR STEVENS It's lucky THE KALDOR POLICE costume has moon boots .
MAXELL Yeah I always knew that coming handy,
ADJUDICATORS STEVENS and DUTTON follow MAXELL over the plain of stones to a wide plateau in a meteor crater and meet ALPHA 1 to 3 and 4 surrounded by there CYBERMAN army .

ALPHA ONE Can I speak to someone on authority .
MAXELL If you don't speak to me , you'll be speaking to someone in authority for the foreseeable future now do I make myself clear .
ALPHA ONE The Cyberman have orders to protect us, what they want is earth authorities to put urinals in residential homes on earth .
CYBER LEADER Even though our BIONICS mean we only injest essential stimulants and vitamins we still pass water, urinate .
MAXELL I'll run it up to Washington take a memo STEVENS .
ADJUDICATOR STEVENS Urinals in homes , not just offices and leisure facilities, a request from CYBERMEN, on the moon .
ALPHA FIVE And stop using the RUTONS as a source of food .
CYBER LEADER Not only do we want you to slow down DENTRASSI evisceration but also pork beef and chicken .
MAXELL well I can't do that because they feed so many people .

ALPHA FIVE glides around the plateau ,his domed head lighting up when he speaks.
ALPHA FIVE Our long range sensors can track the human race in there daily activities .
MAXELL I'm only a policeman you should be directing your concerns to the high council.
CYBER LEADER Then we stay here on the moon until our demands are met .
ALPHA 1-2-3-4 turn and head back across the moon landscape towards the SPACE RAIDER battleship
.MAXELL Adjudicators we're leaving .

The adjudicators walk back across the wide plateau towards the

VISCOUNT and enter through the cargo Bay doors which seal and pressurize.

 the VISCOUNT which lifts off from the surface of the moon .

MAXELL They've probably got Breathing units on their ship an extra travel machines so the moon will be swarming with RUTONS and their Cyberman army .

GABBY MACDOOGLE Of course we can't tell the earth authorities that SPACE RAIDERS are watching our every move from moonbase .

JIM FERGUSSON Now you're here MAXELL we're running out of fuel and your men are gonna have to come down with us

MAXELL Oh that's SOL 3 isn't it yeah the blue planet in front of us getting bigger .

GENE Don't worry you can still phone home consider yourself a guest .
ERIC YOUNGBLOOD Yeah you can stay at mine mum runs a boarding house it's like like a guest house but can't have a guests after 10 o'clock .
MAXELL Maybe you can put me up in the TRAVELOG .
GEN Well we've got standing rooms that Leeds university you can come back with us .
JIM FERGUSSON I'm sure the VICE CHANCELLOR will accommodate, first contact and galactic cooperation etc . All crew, get into your acceleration crunches and prepare to enter earth atmosphere.
Earth control this is theIndependent spaceship VISCOUNT requesting clearance for Titan base.

Sent from Outlook for Android
